Profile

Computer Science Engineering student currently pursuing a B.E. degree, with a practical background in full-stack software development, AI API integrations, and data analysis. I love building responsive web apps from scratch—taking them from initial system design all the way to a live deployment. I bring a strong mix of back-end logic and clear, first-principles thinking to every project I take on.

Technical Skills

Programming Languages: Java, Python, C, JavaScript

Frontend Development: HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS

Backend Development: Node.js, Express.js, MERN Stack

API Development: REST APIs, GraphQL

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, Docker, Jenkins, Postman,

Projects

Campus Connect

Aug 2023 – Oct 2023

Full Stack Developer & Product Owner

[Live Link](#)

- Conceptualized, designed, and launched a secure, private networking platform to solve peer-to-peer collaboration gaps for students.
- Managed the end-to-end product implementation using Next.js and MongoDB, optimizing database queries to enhance platform scalability.
- Awarded **1st place** at the CIT Project-Exhibit out of numerous competing engineering and product initiatives.

TaskPulse

Jun 2026 – Present

[Live Link](#)

- Built a scalable backend using Node.js, Express.js, MongoDB, and Redis for project, task, and analytics management.
- Integrated JWT authentication, Google OAuth, AWS S3 storage, secure email invitations, and role-based access control.
- Developed a modular MVC architecture with real-time updates via Socket.IO and deployed the application on Railway.

Open Source Contributions

- **MDN Web Docs (Content)**
 - Updated WebGL 1 specifications by correcting parameter definitions for `bufferSubData` ([#42411](#)).
 - Revised HTTP documentation to update **Prefer** header syntax rules allowing list structures ([#42575](#)).
 - Resolved internal glossary validation issues by correcting broken redirect paths ([#42576](#)).
- **NumPy**
 - Cleaned up core project configuration infrastructure by removing obsolete Doxygen documentation tags ([#30550](#)).

Education

Cambridge Institute of Technology

Bengaluru, India

B.E. in Computer Science (Affiliated to VTU, NAAC 'A+' Accredited)

Sep 2023 – Sep 2027

CGPA: 7.7 / 10.0

Achievements & Leadership

- **President**, Innov8 Club, Cambridge Institute of Technology Aug 2024 – Present
 - Led initiatives to promote innovation, patent awareness, and intellectual property education among students.
- **Web Developer Volunteer**, Google Developers Group (GDG) on Campus Present
 - Gathering user feedback to iteratively improve registration workflows, maximizing engagement metrics for regional tech events.
- **2nd Runner Up** – Omni-Bot, Codesprint 3.0 Hackathon, NMIT Apr 2025
- **1st Place** – Campus Connect, Mini-Project Exhibit, CIT Oct 2023

Certifications

- **Building with the Claude API** – Anthropic Jul 2026
- **Deloitte Australia – Data Analytics Job Simulation** – Forage Jul 2026
- **Programming using Java** – Infosys Nov 2024
- **Python for Data Science** – NPTEL Jul 2023
- **Front End Web Development Certificate** – Infosys Apr 2023
